CITY OF GERING ANNOUNCES A NEW UTILITY PAYMENT WEBSITE

GERING: The City of Gering would like to announce the launching of a new utility payment website along with the ability for customers to receive bills via email. The new utility website will allow customers to log in to their utility account and view their current bill amount, pay their amount due, view a detail of their billing and obtain consumption history for their electric and water usage. When customers first set up their online account, the account number and exact property location is required. It's important to have that information available; it can be found on the utility bill. The link will be on the www.gering.org website.

If customers are interested in obtaining their bill via email instead of paper, they can now sign up for that option. There is a form online or it can be filled out at the Gering City offices. A signature authorizing the City to email a utility bill to a customer is required.

Customers also have the option to pay their bills via ACH on the 10th of each month. That option requires a form with a signature and a cancelled check. As a reminder, the City will not accept credit card information over the phone for security reasons.

Questions can be directed to the City of Gering Utility office at 308-436-6800.
